TIP | MEMBER-MARKET DATA OVERVIEW

How enrollment shares shifted

20 member districts | 18 unique county markets | 2022-23 to 2024-25

Each cell shows the 2024-25 sector share, with the change since 2022-23 in parentheses. Changes are percentage points (pp), not percentage growth. District-operated public and public charter schools are separate sectors.

County	District public % (pp change)	Public charter % (pp change)	Private % (pp change)	Homeschool % (pp change)
Cabarrus	80.7% (-0.7)	5.1% (+0.4)	5.4% (+0.3)	8.8% (+0.1)
Cumberland	78.8% (-1.9)	2.9% (-0.0)	10.3% (+0.8)	8.0% (+1.2)
Davidson	79.3% (-1.8)	2.2% (+0.2)	5.7% (+0.4)	12.8% (+1.2)
Durham	58.4% (-1.6)	26.9% (+1.8)	11.1% (+0.0)	3.5% (-0.3)

What the changes mean

Every share uses the same-year county total across all four sectors. A sector can gain students while losing share if other sectors grow faster. County-associated enrollment counts can include cross-county attendance; these are administrative market indicators, not a census of where resident children attend school.

County figures cover multiple districts where applicable. Randolph County cannot isolate Asheboro City residents; Davidson cannot isolate Lexington or Thomasville. Edgecombe's boundary transition limits comparisons. Share changes do not identify student transfers or explain why a change occurred. Rounded displayed shares and changes may not sum exactly.

Core comparisons end in 2024-25. A matching 2025-26 four-sector county denominator has not been verified. Newer counts are excluded from this report.

Edgecombe	$271,279	$541,187	$832,957	150

Statewide program context

Statewide disbursements were $134.6M in 2022-23, $185.6M in 2023-24, $432.2M in 2024-25. The program figures exclude ESA+.

Scholarship recipients overlap private-school enrollment and may already have attended private schools. These figures do not identify prior public-school attendance, district withdrawals, all private-school revenue, or money removed from a district budget. County school-location counts are a separate geographic measure.

Population context and boundaries

Each district's pages pair membership with its county's July 2022-2024 residents ages 5-17, using Census Vintage 2025. Population is not an enrollment sector; district and county age/geographic coverage differ. Dividing the district count by county population would not yield valid district market share. Edgecombe's 2024-25 boundary transition limits constant-boundary comparisons.

Three-year enrollment and population context

School year	District month-2 membership	County ages 5-17*	County homeschool students
2022-23	11,413	22,289	1,276
2023-24	11,248	21,888	1,251
2024-25	11,107	21,370	1,002

* Population is estimated on July 1 of the school year's starting calendar year. All three years use Census Vintage 2025. District membership is NC DPI's published MLD total, not ADM. County population and district enrollment differ in age coverage and geography; do not divide them to calculate district market share. [1-3]

County Opportunity Scholarship snapshot

School year	County-resident recipients	Funds disbursed
2022-23	141	$804,957
2023-24	158	$957,360
2024-25	618	$3,072,420

Final NCSEAA payments for residents, including those attending private schools outside the county. Excludes ESA+. Recipients may already have attended private schools; these amounts do not identify district budget losses. [4]

Network and geography

Across TIP's 18 county markets, 2024-25 homeschool shares range from 3.5% to 14.6%. Orange is 16 of 18 by share (highest = 1), not a district performance ranking. 8 private schools are listed in the county's January 2026 directory. [2, 5]

Orange County is served by Chapel Hill-Carrboro City Schools and Orange County Schools. Both member views use the same county homeschool totals. Homeschool estimates may be affected by registry cleanup; changes do not establish transfers to or from district schools. [3]

Reading the county market

DNPE estimates students separately from registered home schools. The January 2026 directory lists 8 private schools in Orange County; this directory snapshot is separate from the annual enrollment series. Scholarship funding follows student residence, including attendance outside the county. Neither measure identifies district budget losses. [3-5]

Shared-county values repeat in multiple district reports; do not sum duplicate county figures. Sector age coverage and cross-county attendance limit resident-child comparisons.
